DESIGNED BY RIDERS, FOR RIDERS

CrossXRacing company offers you high quality durable seat covers for all motocross and enduro motorcycle models.

After years of experience in leather products, from 1980 until today, we dedicate in 2015 to create the CrossXRacing, the first company in Greece that deals exclusively with the manufacture of seat covers for all types of off-road motorcycles.

As riders and fans of motocross and enduro, we understand perfectly the needs and requirements of the rider. Creating therefore the ideal seat cover was our challenge. We searched for the finest materials, excellent fabric quality, flexibility, anti-slip texture, maximum durability as well as vibrant designs and colors that satisfy even the most demanding customer.

Special features of our products are the quality of the artificial leather and the hot melt tape that is used in each seam of the cover making it resistible to water penetration and moisture.

In our new company catalogue you will find all our new products we produce, the materials, the design options and the basic color combinations of every model.

Sincerely
CrossXRacing Team

ADVANCED

SERIES SEAT COVERS

BUILD TO LAST

Design and manufactured with consideration to offer high durability and traction. Our advanced series covers are made for hard conditions and perfect fitness to every model.

Constantly tested by professional teams and riders proves that they are the right gear for the job.

In this series of products we use heavy duty material with Pyramid grain that offers more traction and durability from the common seat covers.

TECHNICAL FEATURES

- Non Slip Material with Pyramid texture that provides traction
- UV Protection for longer life
- Hot Melt Tape at every sew that prevents water penetration and protect the foam
- Lighter Material to reduce weight
- Reinforce seams to last more

PRODUCTION METHOD

Being ourselves riders of off-road motorcycles we found that moisture penetrates inside the seat cover from the seams after bad weather race or after washing , causing the seat to gain more weight and damage the foam.

To prevent such phenomena we add to each seam 3 layer hot melt tape. With this technique we achieve maximum sealing seams, reinforce stitching and extends the life of the seat foam.

All covers are hand made sewed with reinforced seams and every product is designed to fit perfectly on it's specific model.

Check the Designs that we offer for every Brand

UGS

SERIES SEAT COVERS

TECHNICAL FEATURES

- Silicon Rubber Texture
- Ultimate grip for the most demanding riders
- More elasticity for better fit
- UV Protection for longer life
- Pressed logos to avoid sews and obtain more durability

INNOVATION THAT GIVES ADVANTAGE

Driven by passion to create a higher standard we develop the UGS line of products. The unique silicon rubber material of UGS seat covers brings ultimate grip to riders that demands more in affordable prices.

Muddy races and bad weather force riders and equipment to their limits and demands ultimate grip and stability. The line of UGS covers offers you advantage in any demanding condition and secures that you will have the stability and grip that you will ever need.

PRODUCTION METHOD

Ultra Grip Series seat covers are produced with a unique material that has ultimate grip, abrasion resistance, elasticity with silicon rubber texture.

This series of products is designed in order to avoid seams, in all production we use specially equipment and molds to create pressed logos and designs. The result is a cover that prevents water penetration and has more durability.

Our goal is to give rider the ultimate experience by providing him with a product that has ultimate grip and gives him total control.

Check the Designs that we offer for every Brand

**Professional Riders vote it as
“ the cover with the most grip that have ever use ”**

The future of Motocross is on young athletes. Constantly young riders try to improve and evolve and they deserve to be comparable as the professionals. We support the efforts of all young athletes.

Mini dirtbike seat covers available. Check them in our catalogue
