About DS COVERS

We think mobility is a great thing. With that in mind, we started developing high-quality covers for vehicles in 2012. Since then we have constantly expanded and improved our range of covers.

Our products help you protect your beloved vehicle against the various weather elements, extending its lifespan.

It doesn't matter where you park your vehicle. There's always a cover available that meets your needs and provides proper protection.

All products are developed in The Netherlands and tested extensively. This gives them the best possible quality and user-friendliness.

DS COVERS B.V.

**A motorcycle
makes a journey
an adventure.
And proper
protection gives
you the freedom
to enjoy it.**

A close-up, low-angle shot of a person riding a bright blue scooter. The rider is wearing a blue long-sleeved shirt and has their hands on the handlebars. A passenger is seated behind them, with their hands resting on the rider's shoulders. The scooter's large, round headlight is prominent in the foreground, and the side mirrors are visible on either side. The background is blurred, suggesting an urban setting.

**A scooter
promises a
future filled
with urban
exploration.
And a happy
future is worth
protecting.**
