## **THE NOLANGROUP COMPANY**

Nolan had been established in 1972 by Mr. Lander Nocchi, a pioneer, an entrepreneur, a man who represented Italian elegance and had a visionary outlook. Today we represent excellence in the helmet manufacturing industry, the perfect duality among Italian design and engineering.

The Company is situated in Brembate di Sopra, Bergamo, with a breathtaking view of the Alps. Here is where Nolan handcrafts its appreciated helmets.

More than 33.000 square meters of spaces that embrace two specialized production lines, carbon fiber and polycarbonate, two internal Research & Development Departments, an Atelier for special projects, Quality Control department, offices and laboratories.

Concept, production, assembling and delivery. The full supply chain is concentrated in the Italian headquarters and from Brembate reaches over 71 Countries in the world.

## VALUES

Welcome to the world of Nolan, where Italian style collides with cutting-edge technology to create an ownership experience unlike any other. Each helmet is not only a protective gear but also a statement of elegance and expression of personality, ensuring that you look good while feeling good.

Our core values are built on a foundation we call "Elegance in Engineering": the seamless blend of beauty and brains.

At Nolan, engineering is an art form. Our helmets are designed with the highest level of precision and innovation, providing unrivaled protection and performance. We ensure that every helmet fits like a second skin, offering comfort and safety without compromise. In every moment of your life and every journey: from challenging daily commuting to thrilling high-speed adventures and leisurely explorations.

Drawing on over 50 years of experience and the rich heritage of Italian artisanship, craftsmanship is at the heart of our manufacturing process. Each Nolan helmet is crafted with meticulous attention to detail, representing the exceptional quality and excellence of "Made in Italy" on the world stage.

Redefine your elegance and become the ultimate trendsetter: fulfill your style, choose your accessory, wear your next Nolan helmet.

## **NOLAN 2025 COLLECTION: A DISRUPTIVE VISION**

The 2025 Nolan collection marks a bold departure from tradition, embracing a disruptive design language that embodies the brand's core values, Italian elegance, engineering and masterfulness.

We move beyond fleeting trends, drawing inspiration from enduring themes and cultural sensitivity. The result is a collection that transcends seasons, appealing to a global audience with a sophisticated understanding of design.

Clean lines and uncluttered designs reign supreme. Functionality meets elegance, with each element meticulously crafted to enhance the riding experience without unnecessary ornamentation.

We celebrate Nolan's rich Italian heritage and commitment to quality, ensuring each helmet is a work of art disguised as essential riding gear.

The collection explores a diverse range of graphic styles. Solid colors alternate with multi-facing finishes, iridescent effects dance alongside matte surfaces, and minimalist pinstripes add a touch of modern elegance.

We utilize transparency and layering to create captivating depth and dimension.

Materials themselves become part of the design story. We play with textures, fibers, and overlapping elements to create a visually and tactilely engaging experience.

The result is a collection that is both timeless and revolutionary, a testament to Nolan's commitment to pushing boundaries and crafting the future of motorcycle helmets. The quality of being pleasingly ingenious and stylish.

# SPEEDING

For the fastest riders who crave peak performance and the thrill of adrenaline on their powerful bikes. Embrace the rush, master the speed, and push your limits on every ride. Whether on the track or the open road, gear up and ride with confidence. **Ride Bold**

- p. 19 X-804 RS ULTRA CARBON
- p. 33 N80-8
- p. 45 N60-6 SPORT
- p. 57 N60-6

# TRAVELLING

For riders who yearn for long, scenic journeys on open roads with friends and loved ones. Experience the freedom of adventure, the joy of companionship, and the thrill of discovery. Make every weekend ride an unforgettable journey. **Escape Together**

- p. 71 X-903 ULTRA CARBON
- p. 83 X-1005 ULTRA CARBON
- p. 93 N120-1
- p. 105 N100-6
- p. 117 N90-3

# COMMUTING

For urban riders navigating the city, enjoying the convenience and freedom of two-wheel mobility. Effortlessly weave through traffic, enjoy the efficiency of quick commutes, and embrace the vibrant city life with every ride. **Move Free**

- p. 127 N40-5
- p. 135 N30-4 T
- p. 141 N21 VISOR
- p. 153 N21

# EXPLORING

For adventurous riders who love discovering new trails through gravel roads and hidden paths. Embrace the spirit of adventure, explore the unknown, and ride with the freedom to roam. Every journey is an opportunity for discovery. **Ride Wild**

- p. 167 X-552 ULTRA CARBON
- p. 173 N70-2 X

## SPEEDING

For the riders who live for the thrill of speed and the rush of adrenaline, the Speeding segment is your sanctuary. These helmets are crafted for those who embrace the wind, feel the roar of the engine, and crave the heart-pounding moments on the open road. With unparalleled protection and sleek design, every ride becomes a testament to your bold spirit. Push your limits, feel the freedom, and ride boldly, knowing you're equipped with the best.

**N90-3**

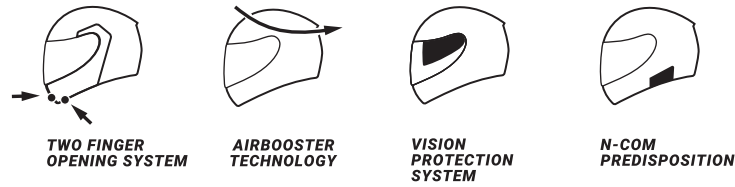

Enjoy the long rides in open roads with the N90 flip-up Lexan™ polycarbonate helmet, meticulously made with quality materials in our factory in Italy. It offers a high level of protection, security and comfort. The ultrawide visor provides optimal visibility, while the dual action system allows for secured one-handed chin guard opening. The Airbooster technology ensures maximum freshness, and you can stay connected wherever you go with compatibility for N-Com systems. A helmet that defines itself as entry in the segment but accommodate all the market expectations.

## COMMUTING

For the city dwellers who transform everyday commutes into moments of freedom, the Commuting segment celebrates your urban journey. These helmets are designed to blend seamlessly into your fast-paced life, offering comfort, style, and safety. Glide through city streets, experience the ease of two-wheel mobility, and feel the liberation that comes with every ride. Enjoy the simplicity of movement, the connection to your surroundings, and the joy of effortless travel.

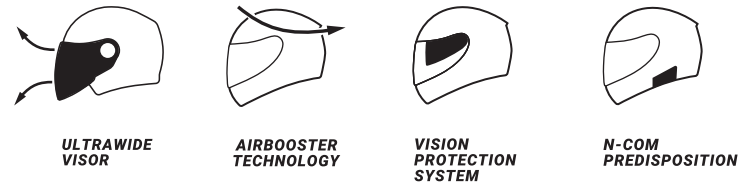

**N40-5**

Elevate your city commuting experience with the iconic N40. Built from high-resistance Lexan™ polycarbonate, the contemporary jet-style helmet redefines style and functionality, providing specific features of high-end Nolan products, such as the “Clima comfort” interior padding, the superior “Airbooster” ventilation system and the compatibility with N-com systems. Be ready to navigate through the urban jungles with confidence, knowing this helmet is designed to provide exceptional comfort and protection.

**N30-4T**

The N30 is the most ventilated helmet of the Nolan collection. Designed for urban mobility, the helmet offers unparalleled comfort and breathability thanks to the Extreme Ventilation System (EVS), that offer strong air flow, even at low speed. The other benefit is a gain in weight (only 1kg) without compromising the safety.  
100% Made in Italy.

## N-COM

Welcome to the N-Com world, where technology meets the passion for two wheels. For over fifteen years, we have been designing and developing communication systems and electronic accessories dedicated to NOLAN helmets. Our constant interaction with the helmet R&D department allows us to achieve the highest levels of integration, comfort, design, audio quality, and performance. We are at the forefront of creating innovative solutions for two-wheel riding. We work with experts in the motorcycle and technology sectors to offer high-performance and always up-to-date products. Our focus has always been the compliance with current regulations. All NOLAN helmets compatible with the N-Com system are approved with the installed communication system and are therefore in compliance with the ECE/UN Regulation No. 22.

**NOJAN**

The future of road connectivity: M951, the revolutionary N-Com communication system with mesh technology.

Developed in collaboration with SENA, M951 redefines the way motorcyclists interact during the journey. Thanks to the powerful mesh network, communication is stable and fluid regardless of the distance between the participants. Sharing the journey, simplified group mobility, interconnection. Bluetooth® technology also ensures all the features of a top-of-the-range system: call management, music listening, navigation instructions, Audio Multitasking.

N-Com M951, the new frontier of communications on the move. M951 is compatible only with all communication systems equipped with mesh technology developed by SENA.

# B902

n-com

**NOJAN**

N-Com B902 is the ideal communication system for motorcyclists who want to experience the road in a safe and connected way. Thanks to Bluetooth® technology, the B902 allows you to manage phone calls, listen to your favorite music and follow the navigator's directions in a safe and simple way. The audio quality is high- and the conversation is clear and defined even at high speeds. The integrated FM radio, intercom conference functions, Auto ON/OFF and multilingual voice announcements make the B902 a complete and reliable system.

The B902L R is equipped with the exclusive ESS presence and braking signaling system, which is a luminous system positioned on the back of the helmet. This system ensures greater safety in the event of an emergency by flashing when the rider brakes or slows down suddenly. The "L" in the product name stands for "light", which is a reference to this system.

n-com

**NOLAN**

N-Com B602 is the ideal system for motorcyclists who want to experience the road in company. With its compact and ergonomic design and integration with NOLAN helmets, B602 offers a high-quality communication experience. Thanks to Bluetooth® technology, the B602 allows you to stay connected with your travel companions, listen to music and follow the navigator's directions in a safe and simple way. The intercom conversation is clear and defined even at high speeds, thanks to the dynamic interference reduction. B602 offers two management modes, Complete and Simple, to meet the needs of all motorcyclists, even the less experienced ones. In addition, it is compatible with the N-Com EASYSET App for updating the firmware and changing the language of the voice announcements directly from the system. Available in single or twin pack.

# B 1 0 1

n-com

B101 R is the communication system for motorcyclists who want to stay connected in a simple and secure way by offering essential functions on short or daily journeys. Thanks to Bluetooth® technology, the B101 R allows you to receive and make phone calls, listen to your favorite music and follow the instructions of the navigator inside the helmet, maintaining concentration while riding (1 external bluetooth source at the time). The Auto OFF function also facilitates the use of the system, automatically turning off the device in the event of no active Bluetooth® connections, thus avoiding battery consumption.

# ESS III

NOJAN

ESS III is the presence and braking warning system that allows the motorcyclist greater visibility on the road. Thanks to the LED positioned on the back of the helmet, ESS III emits light signals both when braking and in low light situations. The system is applicable to most helmet models on the market and installation is quick and simple, thanks to the adapters supplied.

### CURRENT RANGE COMPATIBILITY

N120-1; N100-6; N90-3; N80-8; N70-2 GT/X  
N40-5/GT; X-1005 UC; X-903 UC; X-552 UC

# HPS

The N-Com HPS protectors are the ideal solution to protect motorcyclists' hearing. Thanks to the flexible and hypoallergenic ear caps, they adapt perfectly to all auricles, providing excellent comfort. The innovative patented technology (EarSonics) guarantees an attenuation of external noise up to 16db in normal condition (SNR) without excluding the fundamentals for safety such as sirens, alarms and horns. The result is greater driving pleasure even after long journeys.

# TECHNICAL INFO

- 
**OPEN MESH**  
 Unlimited open group intercom, simultaneous conversation, no pre-pairings
- 
**BLUETOOTH® INTERCOM**  
 Rider-Passenger intercom via Bluetooth®.
- 
**UNIVERSAL INTERCOM**  
 Bluetooth® connection with intercom systems of other brands.
- 
**BIKE TO BIKE INTERCOM**  
 Intercom Bike to Bike. One to one communication.
- 
**SMART CONFERENCE**  
 Intercom conference between 4 N-Com "900" series systems.
- 
**UNIVERSAL CONFERENCE**  
 Intercom conference between N-Com "900" series systems and a "Universal Intercom" system.
- 
**VOX INTERCOM**  
 Voice activation and deactivation of the intercom.
- 
**TWO MOBILE PHONES**  
 Two-mobile phones connection via Bluetooth®.
- 
**FRIEND NUMBER**  
**Numero Amico con comando di chiamata rapido.**  
 Friend Number with quick dialling command.
- 
**FM RADIO**  
 FM radio integrated with RDS: search for radio stations, 6 pre-settings.
- 
**AUDIO MULTITASKING**  
 Simultaneous listening to multiple audio sources connected to N-Com.
- 
**BIKE AUDIO SYSTEM**  
 Connection via Bluetooth® to the bike audio systems. Tested brands: **Ducati, BMW, KTM, Honda Goldwing, Harley Davidson.**
- 
**MOTORCYCLE VIA CABLE**  
 Connection via cable to Honda Goldwing and Harley Davidson
- 
**EMERGENCY STOP SIGNAL (ESS)**  
 ESS (Emergency Stop Signal) system: Intermittent LED light signals sudden helmet decelerations.
- 
**INTERMITTENT LIGHT**  
 Intermittent light function in case of poor visibility.
- 
**REAR LIGHT**  
 Stable rear light function: fixed LED lamp for visibility.
- 
**AUTO ON/OFF**  
 Automatic management of system ON/OFF through accelerometer.
- 
**GROUP MESH**  
 Private group intercom, up to 24 users, simultaneous conversation
- 
**MOBILE CONFERENCE**  
 "Conference Call" function: 3-way telephone call between Rider, Passenger and caller.
- 
**VOCAL ANSWER (VOX PHONE)**  
 Voice-activated answering for incoming calls.
- 
**SMART NAVI SYSTEM**  
 Intelligent management of smartphone navigator.
- 
**N-COM EASYSET APP**  
 N-Com App compatible with Android, iPhone. Check the compatibility of your system.
- 
**MUSIC VIA BLUETOOTH®**  
 Music via Bluetooth® from smartphone and Mp3 players with A2DP Profile.
- 
**MUSIC SHARING**  
 Sharing of Bluetooth® music with a second helmet.
- 
**MUSIC VIA CABLE**  
 Connection via cable to Mp3 players.
- 
**GPS VIA BLUETOOTH®**  
 Connection via Bluetooth® to compatible satellite navigators.
- 
**AUTO OFF**  
 Automatic system switching off, in the absence of active Bluetooth® connections.
- 
**INTERCOM HD**  
 Dynamic noise reduction during intercom communication.
- 
**VOICE PROMPT**  
 System multilingual state voice instructions.
- 
**PC / MAC UPDATE**  
 N-Com EASYSET program. Setting, adjustment of audio parameters, Firmware update.
- 
**INTERCOM EASY PAIRING**  
 Pairing of N-Com systems via QR code with the N-Com EASYSET App.
- 
**FAST CHARGE**  
 Rapid system charging management.
- 
**LOW BATTERY**  
 Battery low indication with acoustic and visual signal.
