 **HOCOPARTS**
PREMIUM MOTORCYCLE PRODUCTS

FEEL'IN DANGEROUS

PREMIUM PROTECTION FOR ALL AGES

Be it a treatment or prevention, POD Active specialises in joint protection for elite athletes and **active humans**.

Designed for broad appeal across ages and genders, plus for work & play, POD is leading the way in joint protection products around natural **human motion**®.

Haiden "DANGER BOY" DEEGAN

AMA MX ROOKIE OF THE YEAR

pod®

Inspired by the human body, our patented **human motion**[®] technology uses the power of **Synthetic Ligaments**[™] engineered from **Vectran Fibres**[™] (5X stronger than steel) to provide progressive, multidirectional motion control.

The POD Hinge Housing provides a smooth contact surface against your knee, avoiding abrasion and delivering new levels of comfort, performance & reliability.

NEXT-GEN
HUMAN MOTION[®]
SYSTEM

The K-Series Knee Braces are at home in dirt, water or snow. Our CE certified impact guards are easily removeable to convert the brace for multi-sport use.

Unlike traditional medical braces, produced with mechanical metal hinges, POD's anti corrosive materials make them ideal for Water Sports, Alpine Sports, Mountain Biking, plus Team & Action Sports.

2 colour combinations:
White/Black
Graphite/Black

AS PRESCRIBED BY THE DOCTOR

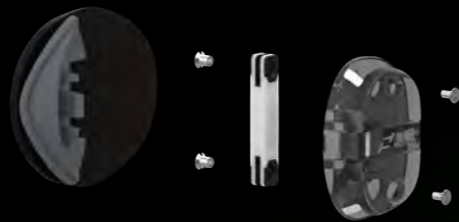

The Impact Modified Lightweight Composite frames sport a glossy black color with sparks of VR46 Fluo on both cuffs and labels. The frames anchor to the hinges for optimal load transfer away from the knee joint, without compromising feel for the bike.

MULTI SPORT READY

The impact guards are easily removable to convert the brace for multi-sport use.

HUMAN MOTION® TECH

The new lower profile patented Hinge integrates shock-absorbing synthetic ligaments. These ligaments are engineered from Vectran Fibres that are 5 times stronger than steel, to provide progressive, multi directional motion control.

LEGENDARY CUFFS

Now in amazing VR46 Fluo color, the Adaptive Cuffs are designed to conform to various leg shapes, while adapting to muscle movement. They accommodate muscle motion and disperse load reducing the risk of skeletal fractures.

K8 KNEE BRACE FORGED CARBON

SETTING NEW STANDARDS

The New Medically Certified K8 2.0 knee brace delivers superior industry leading carbon strength, maximum comfort, reliability and performance.

FORGED CARBON FRAME

Ultimate strength for optimal load transfer. Industry leading 5 year Warranty.

IMPROVED KNEE PROTECTION

CE Certified Full Coverage Guards protect against impacts, handlebar strikes, plus enhance comfort when kneeling.

ADAPTIVE CUFFS

Accommodate muscle motion and conform to various leg shapes, while reducing the risk of skeletal fractures.

NEW HUMAN MOTION® HINGE

Patented Synthetic Ligament™ moves so naturally it feels invisible. 20° - 5° Extension Control Insert optional.

QUICK-LOC READY

Quick release clips & low profile interior straps enhance knee comfort and usability.

LUXURY INTERIOR

Antimicrobial Frame liners enhance comfort, reduce odour plus capture the interior straps and clips to anchor the brace to your leg, and stop brace migration during your ride.

K4 KNEE BRACE

IMPACT MODIFIED COMPOSITE

THE BRACE FOR EVERYONE

POD's new patented and medically certified K4 knee braces offer an affordable alternative to knee guards and are clinically proven to reduce the prevalence and severity of knee injuries.

IMPACT MODIFIED FRAME

Impact Modified Lightweight Composite Frames anchor to the hinges for optimal load transfer away from the knee joint, without compromising feel for the bike.

MULTI SPORT PROTECTION

The impact guards are easily removable to convert the brace for multi-sport use.

NEW HUMAN MOTION® HINGE

The new lower profile patented Hinge integrates shock-absorbing synthetic ligaments. These ligaments are engineered from Vectran Fibres that are 5 times stronger than steel, to provide progressive, multi directional motion control.

QUICK-LOC & GO

Adjust the strap length the first time, then just Clip & Go.

ADAPTIVE CUFFS

Integrated adaptive cuffs accommodate muscle motion and conform to various leg shapes, while reducing the risk of skeletal fractures.

PICK A FLAVOR

Available in two unique colors; Gritty & understated Graphite/Black with a matte finish, or the refined metallic & gloss White/Black combination.

K4 youth KNEE BRACE

IMPACT MODIFIED *youth*

THE CHOICE OF THE YOUTH

Soft tissue damage to children's knees can interfere with growth and development for the rest of their lives. The K4 braces are available in Youth, plus Youth Tall sizes, providing young riders with uncompromised comfort, performance and support. Available in Graphite/Black.

IMPACT MODIFIED FRAME

The composite reinforced frame provides the protection your knee needs.

SIZE MATTERS

To accommodate the significant height variances, our K4 Youth model is now available in Tall.

SAVE TIME & MONEY
REBUILD OR SERVICE YOUR BRACE YOURSELF IN MINUTES

All technical equipment requires scheduled maintenance, and POD's simple modular design allows you to replace worn out liners & straps, rebuild the hinge system and replace damaged impact guards. That means you can buy the parts you need to service or rebuild your brace, at home or the track, saving you time and money.

1. KNEE WIDTH

Measure across the centre of the knee using the POD Sizing Tool. Take measurements in a weight bearing position at full extension (i.e. with leg fully straight).

2. KNEE CIRCUMFERENCE

Measure knee directly underneath the kneecap using a soft tape measure or string. Take measurements in a weight bearing position at full extension (i.e. with leg fully straight).

3. TRY BRACE ON

Walk and bend your leg to aid the brace in settling. The brace should feel comfortably snug. If the measurements indicate you are between sizes, we recommend to go up a size.
