ONEDESIGN

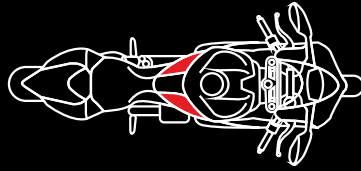

ONEDESIGN reserves the right to make improvements and modifications to its products at any time, also aesthetic, deemed appropriate and necessary to improve their products without altering the functionality of the same, without notice. In such cases, the Customer will not be able to raise disputes, nor request the termination of any orders in progress, nor can claim compensation or price reductions. The images and drawings shown in the catalogues or on the sites are purely indicative.

ONEDESIGN si riserva, in qualsiasi momento, il diritto di apportare ai propri prodotti le migliorie e modifiche, anche estetiche, ritenute opportune e necessarie per migliorare i propri prodotti senza alterare la funzionalità degli stessi, senza preavviso alcuno. In tali ipotesi, il Cliente non potrà sollevare contestazioni, né richiedere la risoluzione di eventuali ordini in corso, né può pretendere indennizzi o riduzioni sul prezzo. Le immagini e i disegni riportati nei cataloghi o nei siti sono puramente indicativi.

ADHESION PROMOTER KIT / KIT PROMOTORE DI ADESIONE

Kit includes: 3 promoter sticks and 2 cleaning wipes.

- Promoter enhances the adhesion power of the 1D parts.
- No damages on surfaces.
- Easily removable.

RECOMMENDED FOR:

- races and track usage;
- application on plastic surfaces;
- application on matt paintings.

Comprende 3 sticks e 2 salviette sgrassanti.

- Incrementa l'adesione delle protezioni 1D.
- Non danneggia la superficie.
- È facilmente removibile.

CONSIGLIATO PER:

- uso in pista;
- applicazione su superfici plastiche;
- applicazione su vernici opache.

COVER GOLD ANNIVERSARY - SOFT TOUCH

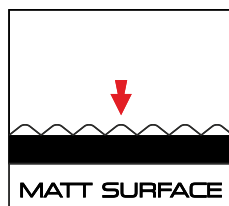

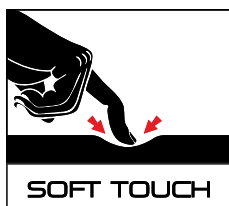

ANNIVERSARY tank pad differs from classic pads for unique matt effect and the feeling of softness that it transmits touching it.

The research and development department of Print after years of tests, was able to achieve this result through the use of both new technologies and innovative materials, in order to create a product of attractive design combined with a nice soft touch.

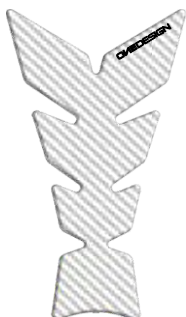

Tank pad ANNIVERSARY si distingue dai classici proteggi serbatoi resinati per l'inconfondibile effetto opaco e per la sensazione di morbidezza che trasmette toccandolo. Il reparto ricerca e sviluppo di Print, dopo anni di test e prove, è riuscito ad ottenere questi risultati grazie all'impiego di nuove tecnologie e all'utilizzo di materiali innovativi, realizzando un prodotto dall'estetica accattivante unito ad un piacevole effetto soft touch.

LABELS FOR HELMET / ADESIVI PER CASCO

ONE VISION

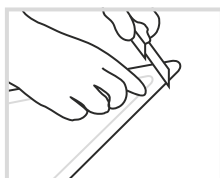

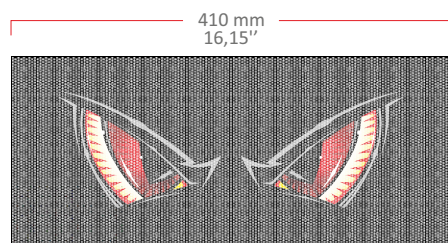

Perforated Cast Adhesive with black interior. It enables excellent visibility from inside, customizing the exterior. In severe or sudden light compensates for the function of the film, avoiding the drawbacks (tunnel or driving at night). The removable adhesive leaves no sticky residue and will not damage the plastic when it is removed. Its versatility allows for easy application without any bubbles or creases. It is advisable to use a hair dryer to wrap the adhesive on the visor. Then wait for the complete dryness and use a knife to contour the edges.

Adesivo Cast microforato con interno nero. Permette un'ottima visibilità dall'interno donando uno stile personale nella parte esterna. In condizioni di forte o improvvisa luce proveniente dall'ambiente esterno sopperisce alla funzione oscurante delle pellicole evitandone gli inconvenienti (gallerie o guida notturna). E' dotato di un'adesivo removibile che non lascia colla e non rovina il supporto in caso di rimozione.

La sua versatilità garantisce una facile applicazione priva di bolle o pieghe. Aiutarsi con un phon per conformare l'adesivo alla visiera. Attendere l'asciugatura dell'adesivo per rimuoverne l'eccedenza con un cutter seguendo il bordo della visiera.

The above drawings are simple examples and in ongoing changes. Please, browse the website or ask the distributors for information and availability. Customization possible from 20 pcs on. Le rappresentazioni qui sopra sono indicative e in continuo cambiamento. Fare riferimento al sito o all'agente di zona per i soggetti e le disponibilità. Possibilità di personalizzazioni con un minimo di 20 pz.

“The manufacturer expressly declares that the product is unsuitable for vehicle drivers”.
“Il produttore dichiara espressamente che il prodotto è inidoneo per i conducenti di veicoli”.

KIT SECURITY - RESIN

ATTENTION _ In order to use your crash helmet anywhere in Europe, you must comply with legislative requirements. Accordingly, you must stick the enclosed reflectors on your helmet. Each reflector must be affixed inside the areas shown below. However, we also recommend you take aesthetic factors into account when positioning the stickers.

ATTENZIONE _ Per poter usare il casco ovunque sul territorio Europeo, bisogna essere conformi ai requisiti di legge. Quindi bisogna attaccare le etichette riflettenti sul casco. Ogni adesivo deve essere incollato nell'area mostrata. Comunque, raccomandiamo di considerare anche il risultato estetico, nel posizionare gli adesivi.

UNIVERSAL STRAPS

REGISTERED PATENT

CUMP (UNIVERSAL STRAPS / CINGHIE UNIVERSALI)

The Universal straps were designed to safely transport any kind of vehicles with handlebars (Fig. 1) (motorbike, watercraft, atv, motocross, bicycles). Two cuffs are inserted on the handlebar grips without them being damaged. The cuffs are connected to the opposite strap forming an "X". By pulling the straps (Fig. 3), the fork is compressed downwards 5/10 cm. Therefore there are no compressions or extensions of the fork during transport. The vehicle is still and safe (Fig. 6). Furthermore, the straps run through a rubber sleeve which protects the tank and other delicate part from abrasion (Fig. 1). Le Universal Straps sono nate con l'esigenza di trasportare con sicurezza sui carrelli o nei furgoni, qualsiasi tipo di veicolo dotato di un manubrio (Fig. 1) (moto, scooter, moto d'acqua, atv, motocross, biciclette) dove poter agganciare le boccole di tensione (Fig. 5). Infatti due boccole (Fig. 2) vengono infilate nel manubrio, senza rovinare le manopole, ed essendo collegate in modo contrapposto formano una "X". Tensionando le cinghie con i relativi cricchetti (Fig. 3) si porta in compressione la forcella per circa 5/10 cm verso il basso. A questo punto durante il trasporto il mezzo non ha più compressioni o estensioni della forcella rimanendo bloccato e sicuro (Fig. 4) Al fine di evitare abrasioni sui serbatoi e parti delicate le cinghie scorrono all'interno di un salsicciotto di gomma (Fig.1).

SCHEMA DI ANCORAGGIO
CUM BLOCK SCHEME

The point of traction is made at the center. This prevents damage to the knobs or to fold the handlebars. The straps are sewn to the opposite yellow knobs, flowing into foam part.

Il punto di trazione viene esercitato al centro, non sulle manopole della moto, evitando così di rovinarle o di piegare i semi manubri. Le cinghie sono cucite alle cuffie gialle opposte e scorrono nel salsicciotto di gomma.

NEW PACKAGING FOR: CUMP and CUMEVOP. / NUOVA CONFEZIONE PER I CODICI: CUMP e CUMEVOP.

CUMEVOP

(UNIVERSAL STRAPS EVO / CINGHIE UNIVERSALI EVO)

The CUMEVOP were designed to safely transport any kind of vehicles with handlebars (motorbike, watercraft, atv, motocross, bicycles). Two bands can be wrapped around the handlebar allowing the usage also for bikes with cuff and shift pad. By pulling the straps, the fork is compressed downwards 5/10 cm. Therefore there are no compressions or extensions of the fork during transport. The vehicle is still and safe. Furthermore, the straps run through a rubber sleeve which protects the tank and other delicate part from abrasion.

Le CUMEVOP sono nate con l'esigenza di trasportare con sicurezza sui carrelli o nei furgoni, qualsiasi tipo di veicolo dotato di un manubrio (moto, scooter, moto d'acqua, atv, motocross, biciclette) dove poter agganciare le boccole di tensione. Infatti grazie a due fasce separate che si avvolgono nel manubrio, possono essere utilizzate anche per moto provviste di **paramani** e **paraleva**. Tensionando le cinghie con i relativi cricchetti si porta in compressione la forcella per circa 5/10 cm verso il basso. A questo punto durante il trasporto il mezzo non ha più compressioni o estensioni della forcella rimanendo bloccato e sicuro. Al fine di evitare abrasioni sui serbatoi e parti delicate le cinghie scorrono all'interno di un salsiccio di gomma.

CUMSP

Standard straps for all requirements (Fig. 1). Realized with high quality material. Safety hook in steel (Fig. 2) with a rubber protection and high quality jack. Per tutte le esigenze ecco le cinghie standard (Fig. 1) realizzate sempre con materiali di alto livello qualitativo, gancio di sicurezza (Fig. 2) in acciaio protetto con gomma e cricchetto a pulsante anodizzato.

LEVER BLOCKER - BLOCCA LEVA

NEW

Front brake lever blocker. It blocks the wheel during bike's carriage and allows the exit of the air from braking system.
Blocca leva del freno anteriore, blocca la ruota anteriore durante il trasporto moto e favorisce lo spurgo dell'aria dall'impianto frenante.

Code: **LB**

GEAR LEVER PROTECTOR - PROTEZIONE LEVA CAMBIO

NEW

Neoprene sock to preserve the shoes when touch the gear shift.
Calza in neoprene che evita di sporcare la parte della scarpa a contatto con la leva del cambio.

Code: **GLP**

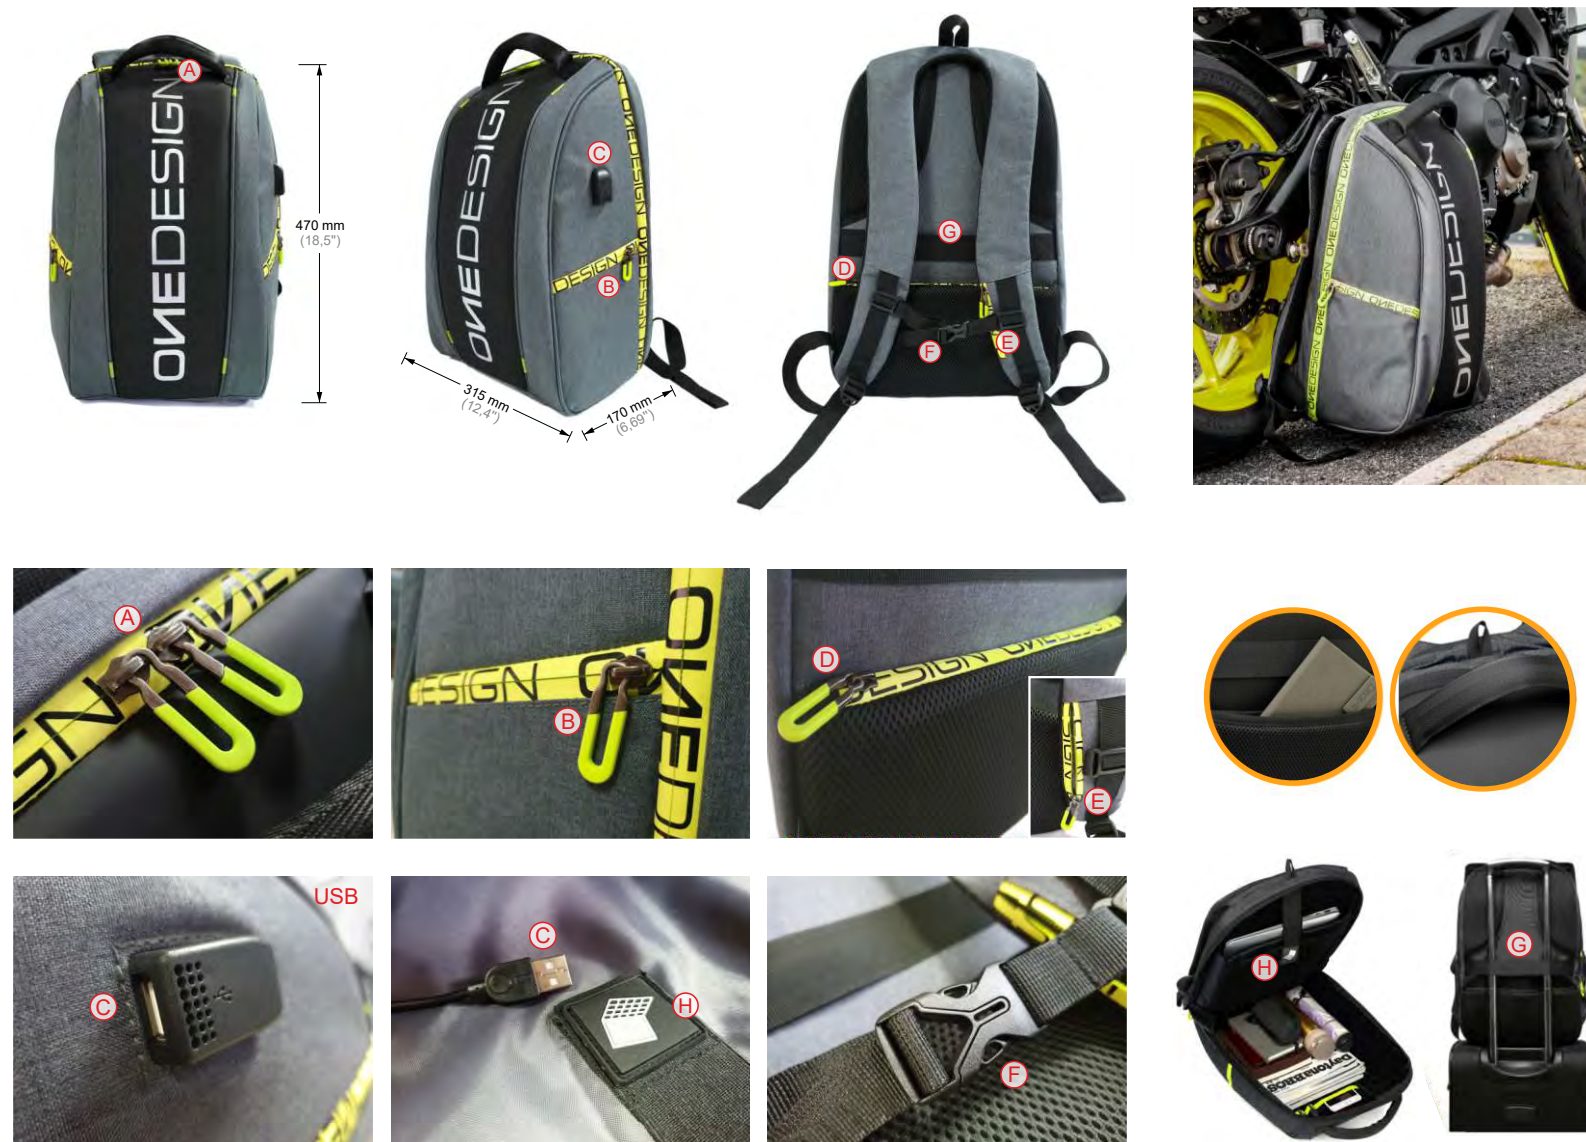

BACKPACK / ZAINO

NEW

Waterproof backpack for trips and into city traffic. Realised with waterproof materials and zips. It contains: hidden pockets; laptop's pocket; USB connection.

Zaino waterproof ideale per lunghe gite o traffico cittadino. Realizzato con materiali e cerniere Waterproof. Dotato di tasche nascoste, tasca per pc portatile, telefono cellulare e presa esterna USB per integrazione powerbank all'interno.

Code: **ZAINO**

BELT POUCH - MARSUPIO CINTURA

NEW

Small-size elastic band pouch for keys and smartphone. The elastic fabric adheres with the contained objects keeping them safe, steady and dry.

Marsupio con fascia elastica realizzato con materiali e cerniere waterproof. Ideale per avere con se chiavi e telefono cellulare con un ingombro ridotto. Il materiale elastico aderisce agli oggetti tenendoli fermi e asciutti.

FIREPROOF ADHESIVE FOR FIBER HULLS ADESIVO IGNIFUGO PER CARENE IN FIBRA

Textile yarn, textured glass containing no asbestos, toxic substances and heavy metals. One can use for applications that require high heat resistance and mechanical properties, with temperatures up to 550°C. The basic fibers of spun glass "E" are inorganic, sterile and incombustible, resistant to oils, solvents and many chemicals, do not rot and are not attacked by fungi and bacteria, possess good resistance to abrasion, vibration and enjoy also of good elasticity and compressibility.

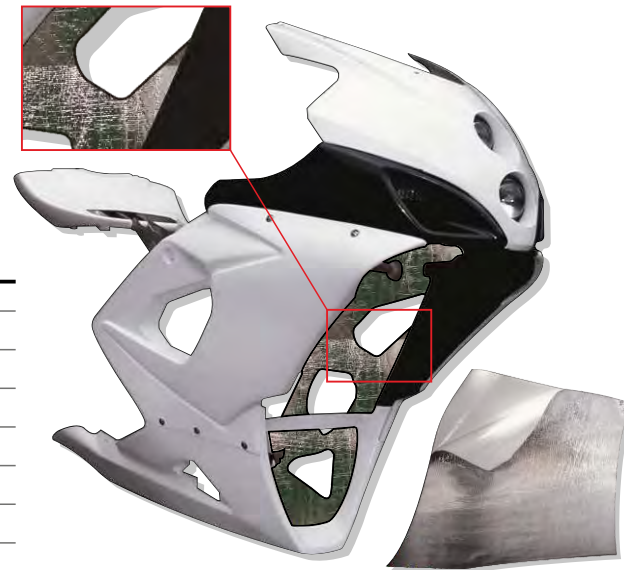

Filato di vetro testurizzato non contenente amianto, sostanze tossiche e metalli pesanti. Si può adoperare per applicazioni che richiedono alte resistenze termico-meccaniche, con temperature fino a 550°C. Le fibre di base del filo di vetro "E" sono inorganiche, sterili e incombustibili; resistono a olii, solventi e a molti agenti chimici; non marciscono e non vengono attaccate da funghi e batteri; possiedono buona resistenza all'abrasione, alle vibrazioni e godono inoltre di buona elasticità e comprimibilità.
