SMH5

Bluetooth® Headset & Intercom for Scooters & Motorcycles

SMH5-FM

Staying connected while enjoying the ride at the same time is at the top of the list for any rider. Bluetooth 3.0 technology gives you the ability to make hands-free calls and participate in a one-to-one intercom conversation with a riding buddy up to 400 meters away, while delivering GPS directions, and providing the capability to listen to and share music when paired with an MP3 player or smartphone.

The SMH5-FM provides two-way intercom functionality that keeps you connected to your riding companion for conversations and music sharing through the crystal-clear Bluetooth® stereo headset. Meanwhile, the integrated FM tuner delivers crystal-clear FM radio reception.

Remote controls

Less distraction for a safer ride

The control you need right at your fingertips. (Only available for units with 4.1 Bluetooth)

Hoco#	Remote Control
16 662003	RC4
16 662002	RC3
16 662004	RC1
16 662001	Handlebar Remote

RC 4

Place the device directly onto your bike's handlebars and you're ready to ride. The RC4 features a much more compact design than its predecessor, and fits perfectly on even more types and sizes of handlebars. The RC4 has a battery life of about 5 months.

RC 3

Clip the device directly on your right sleeve, or attach it to the body of your motorcycle to have full control of your Sena Bluetooth® communication gear.

RC 1

The RC1 allows for users to remotely operate the features of Sena's RideConnected smartphone application, such as turning the microphone or speaker on and off or making team announcements.

Handlebar Remote

Motorcycle Bluetooth®

- Bluetooth 4.1
- Easy installation by handlebar clamping
- Glove-friendly joystick and buttons
- 3 months of battery life
- USB port for charging
- Water resistant for use in inclement weather

SR10

Bluetooth® Two-way Radio Adapter

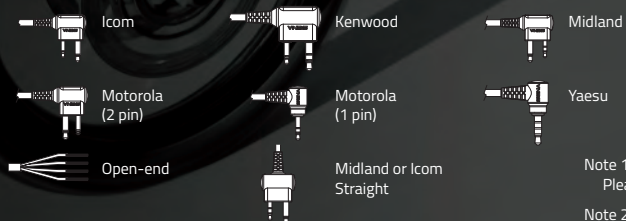

The SR10 Two-way Radio Adapter allows you to talk wirelessly with two-way radio devices via Bluetooth® 2.1+EDR. It also provides a hands-free gateway for mobile phones and is compatible with standard stereo or mono Bluetooth® headsets.

- Mono audio
- Wired PTT Button extension for handlebar grip mounting
- 12V bike-powered kit with on/off control by ignition switch

Hoco#	SR10
16 613500	Adapter

- Bluetooth® 2.1 + EDR
- Can Be Used While Charging
- AUX input for GPS, radar or laser detectors
- Firmware Upgradeable

Two-way Radio support

Note 1: Two-way radio cables are optional accessory items. Please choose right cable for your two-way radio device.

Note 2: Two-way radio sold separately.

SM10

Dual Stream Bluetooth® Stereo Transmitter

Hoco#	SM10
16 613550	Stereo Transmitter

With the SM10 both you and your passenger can listen to the same music or radio station from your Onboard Audio System, MP3 player or Phone using any Bluetooth headset on the market.

- Bluetooth® 2.1 + EDR
- Bluetooth Stereo Music
- Audio Stream for 2 headsets
- Playback Control
- Can Be Used While Charging
- AUX input for GPS, radar or laser detectors
- Firmware Upgradeable

Onboard Audio System Support with Optional interface cable
